Dear Ms. Lisa, (Hello Shannon)

This communication is in furtherance to the clarification details discussed with you

during a phone call on May 27, 2020. EPA R2 participants were Leena Raut, Joe Gowers and myself, Wanda Calderon. Please confirm that the following outcome is in alignment with what you're seeking:

- Limit the timeframe to January 1, 2012 through December 31, 2013
- New extended due date of 6/30/2020
- Key custodians: Joe Gowers, Sal Badalamenti (retired), Doug Garbarini, John Frisco (retired), John LaPadula (retired), Frank Cardiello (retired) and Walter Mugdan.
- We will provide a list of non-privileged docs in SEMS for the above time frame for to pick out any documents (that we will need to review for privilege/PII/CBI)
- R2 comments and decision-related documents submitted to the NRRB re: the Ringwood Site
- Correspondence between R2 and NRRB, including correspondence involving risk assessors and NRRB
- NRRB's remedy review recommendations provided back to EPA, particularly as the pertain to PMP, CMP and OCDA—our interim response has covered this.
- Internal and external correspondence regarding above key/words and topics between EPA and any other agency including but not limited to Ringwood Borough and NJDEP—this is now tweaked as follows:
  - Limited to above time frame and, for emails, we will focus on Outlook first
  - Key words for time frame are: Ringwood, OU2, NRRB, and NJDEP

Once I hear back from you, EPA R2 will proceed with the collection of documents. We may need to obtain additional extensions of time during the course of our releases.

Thank you and stay safe, Shannon!  
Sincerely,
